Profile Summary

I am a React Native developer with nearly 3 years of experience building high-performance, scalable mobile applications for both iOS and Android platforms. My expertise spans React Native, JavaScript (ES6+), UI/UX design, native module integration, and performance optimization. I excel in delivering seamless, user-centric mobile experiences and thrive in agile environments. With a strong focus on clean code and best practices, I consistently aim to improve app efficiency, ensuring high-quality results that meet both user and business needs.

Technical Skills

- Mobile Development: React Native, iOS Native, Android, Redux, Redux-saga, Axios, MobX
- Programming Languages: JavaScript (ES6+), TypeScript
- Tools & Technologies: Visual Studio Code, Git, Firebase, REST APIs
- Version Control: Git, GitHub, Bitbucket, GitLab
- Testing: Jest, React Native Testing Library
- Third-Party Integration: Google Maps API, Payment Gateways, OCR, Video Conferencing APIs

Professional Experience

Jr. Software Developer (July 2022 – Current)
Location: Ahmedabad
AIMDek Technologies Pvt. Ltd.

- Collaborated with cross-functional teams to ensure timely delivery of features while maintaining code quality through testing and reviews.
- Developed and optimized scalable, high-performance mobile applications across various industries.

Trainee Software Developer (Jan 2022 – July 2022)
Location: Ahmedabad
AIMDek Technologies Pvt. Ltd.

- Learned and worked on multiple backend and frontend like node.js, angular and react.
- Worked as a React Native developer and worked with a client on a project.

Projects

Workforce Management Application

- Developed a workforce management system for tracking employee work hours and locations using GPS. Designed user interfaces for equipment monitoring and payroll reporting.
- Integrated APIs for real-time reporting and auto clock-in/clock-out.

Social Media Application

- Built a social media platform with post, comment, and multimedia sharing features. Integrated advanced search functionality using hashtags and geolocation.
- Optimized performance with image and video caching strategies.

Bill Payment Application

- Developed features for bill tracking, reminders, and payment history.
- Integrated seamless payment gateways and utilized OCR for simplified credit card entry.

Smart Diaper Changing Pad Companion App

- Developed a BLE-enabled app for real-time monitoring of smart diaper pad sensor data.
- Utilized a custom boilerplate for login, navigation, and state management with Redux.
- Led deployment, native module development, and optimization, ensuring successful app store release.

Smart Watch with CGM (Continuous Glucose Monitoring)

- Created a C++ native module for skin tone assessment using the Fitzpatrick scale.
- Led app deployment, client communication and debugging the existing app issues and solving in a timely manner.

Education

Year	Degree/Certification	Institute/School	CGPA/%
2022	BE (Computer Engineering)	Darshan Institute of Engg and Tech	8.98
2018	Higher Secondary	Swastik School of Science	65.5%
2016	Secondary School	Saraswati School	75.5%
